CANCEL BACK TO EDIT **PRINT PRICE** ADD TO CART

If you have previously established pricing, you can print an estimated price summary for direct orders (i.e. orders checked-out without a quote) from the “Order Review” section. In the bottom right hand corner of the page click the “Print Price” button and an estimated pricing PDF will pop-up in a new tab. If the PDF does not pop-up, check your settings and make sure you are allowing pop-ups. Also, if the “Print Price” button is not available please contact the Sales Operations team to set up your pricing.

Tracking Number	Service Line	Service Item	Comment	Total Amount
50-667717407	Sanger Sequencing	PCR Product - Purified		

Subtotal Amount: Estimated Tax: Total Amount:

2: Sample Submission/Delivery Options

Sample Submission/Pickup method: I would like to be contacted by a Azenta/GENEWIZ representative for this order

General Dropbox FAQs

On the check-out page you will be prompted to select a Sample Submission/Pick-up method when applicable. If this is your first order and you would like to submit samples via an Azenta dropbox, select “I would like to be contacted by a representative for this order.” A member of our Technical Support team will reach out to discuss your dropbox locations and link you to the dropbox of your choice.
